Main Gallery:

New Myths and Varied Tales: Truth, Lies and Shiny Objects is an invitation to engage in conversation with artist Jeannine Bardo, about what holds value to us. Bardo's work focuses on our relationship to the natural world and to one other. Her installation is meant to welcome you into a space of shared stories that together have been transformed into new myths and varied tales as a way to make sense of the trauma and violence we inflict upon the Earth and one another. The conversations are meant to come from a place of hope and agency, to talk of love and beauty and how we want the world to be, to share what we hold as precious, what is valuable and why, to engage our imaginations and to build new truths towards a new narrative that includes a collective of new myths and varied tales. Why? Why not?

Threshold:

There will be a connecting exhibition in Threshold that will offer participants an opportunity to purchase a powerful life force and long-term, slow-growth investments that reap eternal rewards. True story!

Please join her to add your voice to the conversation.

## Stand4

Founded in January 2017 as an artist-run initiative, Stand4's pursuit is to be alive and working towards a better world through the arts as an active medium of engagement. Stand4 serves as a generator of meaning, action, agency, collaboration, and social justice. It is shapeless, non-conforming, and responsive to the times. Stand4 is meant to exist as a catalyst: a way to envision a more socially and environmentally just future. Housed in a former medical office in the heart of Bay Ridge, Stand4 brings the visual arts and programming to the center of the community, opening up opportunities for social, political and cultural connections and creating a discourse that bridges culture and tradition and includes new voices towards a more sustainable future inspired by local interests.
